DETAILED ACTION

Double Patenting

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claims 26-44 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-23 of U.S. Patent No. 6,624,125 B2. Although the conflicting claims are not identical, they are not patentably distinct from each other because the patent claims are drawn to care agents comprising matrix particles comprising the same ingredients as the particles presently claimed. Dependent claims are drawn to the dimensional and compositional limitations claimed presently. While the present claims are not duplicates of those in the patent, it would have been obvious at the time that the invention was made to make the particles presently recited, because the patent claims compositions comprising such particles.

Allowable Subject Matter

3. Claims 26-44 would be allowable if the double patenting rejection above were overcome. Reasons are of record in the parent.

4. Any prior art made of record and not relied upon is of interest and is considered pertinent to applicant's disclosure.
